- Young Scientists (Science/Hospitality)
- Stage Challenge (English/Design)
- Young Chefs (Hospitality)
- Business (Business)
- The Art of Hula (Performing Arts)

INFORMATION STUDENTS

1. 8 of the subjects studied in Year 9 continue in Year 10.
These subjects are:

Te Reo Māori

English
Mathematics and IT
Health and Physical ED
Science
Social Studies
Religious Studies
The Arts

2. The other subjects studied this year become optional.
3. Consider carefully these three questions:
 - (a) What is the highest level you hope to reach at school?
 - (b) What subjects are you likely to take at in senior school?
 - (c) What are your future university and career goals?

Remember that work ethic, interest and future aspirations are important reasons for your choices.

This booklet contains a schedule of proposed subjects at all levels. Choosing a subject in Year 9/10 does NOT commit you to take that subject in Year 11 (if it is a senior course option).

4. If students require guidance, they should seek this as soon as possible from the following people:

YEAR 9/10 CORE SUBJECTS

ENGLISH (9ENG)

COURSE INFORMATION

Fieldwork:	N/A
Course Contributions:	N/A
Course Leads to:	Level 1 English (1ENG)
Teacher in charge of subject:	Amanda Jarden
HOLA in charge of subject:	Amanda Jarden

The Hukarere Girls' College English Learning Area shares the aims of the Aotearoa English Curriculum, which wants students to:

- engage with and enjoy language in all its varieties and
- understand, respond to and use oral, written and visual language effectively in a range of contexts.

English for Year 9 students is important and aims to give students every opportunity of working at the appropriate curriculum level while familiarising themselves with NCEA marking schedules. Students will engage with a range of text types, including poetry, short stories, novels, films, and non-fiction using them to explore and learn about human experiences. Students will experiment with a range of communication formats throughout the year. Junior student classroom.

Enjoy and inspire others through

HEALTH & PHYSICAL EDUCATION (HEP)

COURSE INFORMATION

Fieldwork:	N/A
Course Contributions:	N/A
Course Leads to:	Level 1 HEP
Teacher in charge of subject:	Laura Holdsworth
HOLA in charge of subject:	

In Year 9 Health and Physical Education, students participate in two lessons of Core Physical Education (PEC) per week, and one lesson of Health Education (HED) per week.

Students participate in Physical Education and Health Education separately. Physical Education and Health Education in the Aotearoa

In Year 10 Physical Education (9PEC):

- Students participate in and learn through a wide variety of practical contexts.
- PE lessons are focused on the themes of social responsibility, biophysical principles (anatomy, biomechanics and exercise physiology), socio-cultural influences on participation and Māori hauora.
- Students will also develop and be assessed on their movement skills throughout these units.

In Year 9 Health Education (10HED):

- Learning is focused on the topics of Keeping Safe (Alcohol and Drug Education), Healthy Relationships (Sexuality Education) and Mind Matters (Mental Health).

YEAR 9/10 CORE SUBJECTS

MATHEMATICS & IT (9MAT)

COURSE INFORMATION

Fieldwork:	N/A
Course Contributions:	Education Perfect Online Subscription – no cost
Course Leads to:	Level 1 Mathematics
Teacher in charge of subject:	Sarah Knight
HOLA in charge of subject:	Sarah Knight

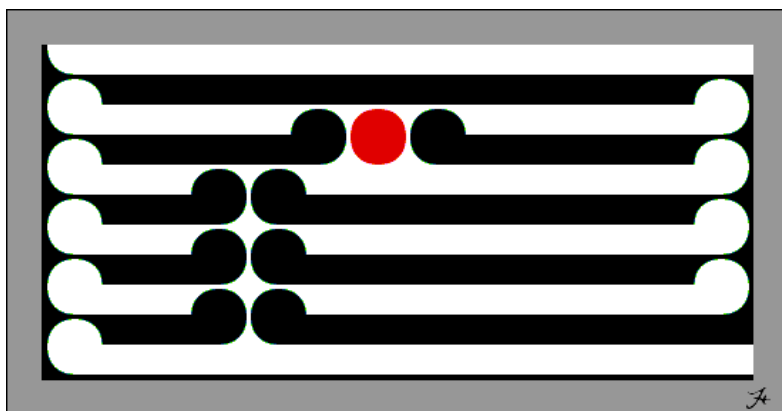

This course prepares students for NCEA Level 1 Mathematics. The course is determined by the National syllabus and includes the following topic areas: numbers and percentages, area and volume, geometry, measurement, trigonometry, graphing, algebraic manipulation, statistics, probability, solving equations, vectors, constructions and transformations. Year 9 Mathematics covers levels 4, 5 and 6 of the NZ Mathematics Curriculum. IT is incorporated into the maths course.

The Year 9 Mathematics goals are to help students see the value and usefulness of mathematics and statistics in everyday life; develop their ability to think logically, creativity, critically, strategically and provide them with the mathematical and statistical skills needed for work. All of this course will be assessed by end of topic tests.

TE REO MĀORI (9REO)

This course encourages students to develop a deeper understanding of the world around them. Students will discuss whānau relationships in te Reo Māori. They will also communicate in te Reo Māori. Students would also be expected to use te Reo Māori in their day-to-day life. This course provides a Level 1 qualification.

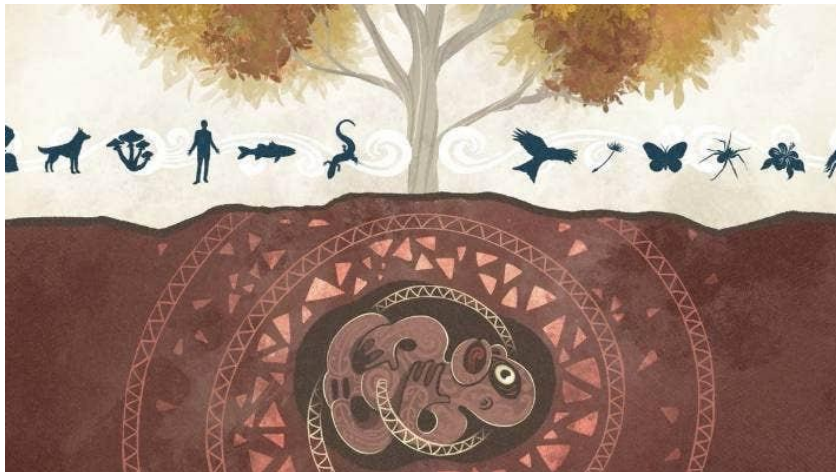

YEAR 9/10 CORE SUBJECTS

SCIENCE (9SCI)

Fieldwork: N/A
 Course Contributions: N/A
 Course Leads to: Level 1 subject in Science
 Teacher in charge of subject: Mrs Sorenson
 HOLA in charge of subject: Mrs Sorenson

Science aims to develop understanding of the world around us. Science uses critical thinking and other important skills that are important to all citizens, not just our future scientists and technologists. We live in a complex world, understanding how technology is developed and how science and technology affects our lives is very important. Topics studied: Diversity, Forces and Motion, Chemical reactivity, Electricity, Investigation skills.

SOCIAL SCIENCE

Fieldwork: N/A
 Course Contributions: N/A
 Course Leads to: Level 1 subject in Social Science
 Teacher in charge of subject: Karl laveta
 HOLA in charge of subject:

Social studies education aims to teach students about the world in which they live and how to be informed, critical, active, and responsible citizens of our world. Contexts are drawn from the past, present, and possible futures and from places within and beyond Aotearoa. The Year 9 course focuses on Māori history and global issues and how these relate to Aotearoa.

HOLA in charge of subject: Anc

RELIGIOUS STUDIES (9RS)

The Year 9 course will allow students to gain instruction in te hahi mihinare, the foundations of our Anglican kura. You will learn about: Te whakapono me te tikanga - Religious systems and cultures, Kōrero pūrākau - Stories and texts, Te Whakapono i roto i Aotearoa - Religion in Aotearoa New Zealand Ngākau tapatahi - Religion and ethical issues in our world.

VISUAL ARTS (9ART)

The Year 9 Visual Art course will allow the students to experience and experiment with a variety of media, techniques and tools for particular art-making purposes. The students will generate, develop and refine visual ideas in a body of work in response to different motivations. Students will have the opportunity to identify and analyse the processes, procedures, and art-making traditions of other artists and to relate their findings to their own and their peer's artworks. Students are able to keep their completed items at the end of the course.

RŪMAKI (RU)

Hukarere Girls' College will be offering a junior Rūmaki class for 2023.

Head of this learning area is Whaea Havlee Pearce

Juniors who opt into this class will sit three classes.

While offering a full immersion Māori programme, students also have access to English medium classes where they will take classes with our specialist teachers and are able to participate in our sporting, cultural and gifted and talented programmes.
